“Many people can be apprehensive and emotional when faced with selecting a lasting tribute for a loved one.

We take time and care to ensure that the correct decisions are made with regard to each individual and the memorial they choose.”

MEMORIAL MASONRY

For 240 years and seven generations, Lodge Brothers Funeral Directors and Memorial Stonemasons have been helping the local community in their time of need, providing funerals and memorials, both modern and traditional, with care and compassion. Our reputation for delivering a professional and personal service of the highest quality, has been built on trust and recommendation.

The tradition of using a memorial to commemorate the life of a lost loved-one goes back to the beginning of civilisation and is seen as a visible link between the departed and those left behind. **Every memorial is individually made and can be personalised through changes in design.**

"I was taught to take pride in our workmanship and respect all our clients as every memorial is a commemoration of a loved one's life. This ethos runs through the memorial team and we are really proud of the attention to detail and customer service we provide to all our customers."

Chris Lodge, Memorials Director

MEMORIALS

When choosing a memorial please remember that you can alter the design to suit your own requirements and create a personal tribute. They are all individually made and most designs can be made in any stone type.

All cemeteries and churchyards have specific regulations with regard to memorials. We can advise on the appropriate style, material and lettering finish accordingly.

LETTERING / LAYOUTS

For new memorials our artists will create a "to scale" proof for you to approve prior to lettering the headstone. This will show any artwork you have requested and allow the family time to consider fonts, placement and style.

We use sandblast, hand carved and machine carved letters depending on the material we are working with and will advise you of the best option.

MEMORIAL MASONRY

DESIGN SERVICE

Our masonry team aims to provide you with the highest level of service including design, advice, installation and aftercare.

To this effect we use CAD software to create 3D images to bring your ideas to paper before commissioning the design to production.

Please see an example of this in the images to the right and below.

BESPOKE

Many clients personalise a headstone through ornamentation such as carving, sandblasting, etching or photo plaques. We can also supply hand carved, reconstituted and bronze statues, together with ceramic photo plaques.

ADDITIONAL INSCRIPTIONS & RENOVATIONS

Our skilled masons renovate and add inscriptions to existing memorials. At your request we will inspect an existing memorial and provide a free quotation for any remedial work that may be required to bring the memorial back to its original condition.
